

## **The meaning of life**

When you trust life  
you trust yourself

When you trust yourself  
you are in your power

When you are in your power  
you know what you want

When you know what you want  
you go for it

When you go for it  
you achieve it

When you achieve it  
you have confidence

When you have confidence  
you are in joy

When you are in joy  
you feel alive

When you feel alive  
you have fun

When you have fun  
it transfers to others

When it transfers to others  
there is even more fun

When there is more fun  
we relax

When we relax  
there is connection

When there is connection  
Love is there

When love is there  
Heaven is very close

When heaven is very close  
we know the meaning of life

When we know the meaning of life  
we are in the place we came for.
